

MAKING MENTAL HEALTH HAPPEN

Boost 200: Making Mental Health Happen!

Need Some Help to Become a Licensed Behavioral Health Professional?

Virginia is in the midst of a mental health crisis.

Demand for counseling services exceeds the capacity of the state's licensed therapists.

Boost 200 is a special initiative to accelerate licensure of 200 motivated Masters-prepared Social Workers, Counselors and Marriage and Family Therapists by paying for their required supervision. In return, *Boost 200* participants must commit to practice in Virginia for two years upon licensure.

Who is Eligible?

- Energetic Masters-prepared Social Workers, Counselors or Marriage and Family Therapists; Residents in Counseling or Marriage and Family Therapy licensed by the Virginia Department of Health Professions (*DHP*); and current Supervisees in Social Work approved by the DHP. Applicants must be paying for all or most of their Supervision hours.
- Preference will be given to applicants practicing in a [Mental Health Professional Shortage Area](#), or people of color or those who are bilingual.
- Candidates can have completed no more than 60% of clinical and Supervision hours.

How Does *Boost 200* Work?

- VHCF will pay approved Supervisors directly for completed Supervision hours provided to a *Boost 200* participant.
- Participants commit to:
 - ✓ Completing clinical and Supervision hours required for Virginia licensure in a timely manner, without delay;
 - ✓ Sitting for the National exam required by the DHP for licensure within 4 months of completing clinical and Supervision hours;
 - ✓ Working as an LPC, LCSW or LMFT for 2-years in Virginia in any practice setting (4,000 *hours total*) upon completing *Boost 200* and becoming licensed.
- Candidates must have applied to the DHP to begin licensure-related Supervision before submitting a *Boost 200* application. A list of Supervisors interested in participating in *Boost 200* is available for those who need help identifying a Supervisor.

When and How Do I Apply?

- [Boost 200 online applications](#) are accepted, and decisions announced, on a rolling basis until all funds are obligated.
